Aidan Maddock

Oxford, UK | aidanlnmaddock@gmail.com | +44 07350 195192

Education

University of Oxford
MSc Environmental Change and Management — Sep 2025 – Sep 2026
- Courses: Quantitative methods, complexity and systems analysis

McGill University
BA Joint Honours Economics and Geography — Aug 2021 – Apr 2025
- First Class (GPA 3.76/4)
- Relevant Coursework: Econometrics, micro / macro, development economics, statistics, GIS

Technical Skills

- Programming: Stata, Python (pandas), R (dplyr, tidyverse)
- Econometrics: OLS, Panel data, difference-in-differences, Time-Series, LASSO, MSMs
- Data: Large scale microdata (10+M obvs), survey weighting, data cleaning
- Methods: Causal identification, big data, GIS

Employment and Research History

Master's Research, Environmental Change Institute, University of Oxford Sep 2025 – Sep 2026
- Dissertation: Environmental Policy Sequencing and Emissions Reductions
- Using OECD panel policy data and marginal structural models to study how institutional capacity and policy sequencing affect emissions outcomes in R
- Developing Python-based simulations to analyse political support for carbon taxation

Undergraduate Research, Department of Geography, McGill University Aug 2023 – Aug 2025
- Built spatial microsimulation model in STATA of 13 million households using census microdata to assess distributional effects of carbon taxation
- Combined longitudinal household survey datasets, energy datasets, and input-output models with LASSO-prediction and IPF to calculate household carbon demand
- Linked household survey, census, and georeferenced datasets to produce interactive GIS visualisations of distributional impacts

Climate Compatible Growth Feb – Apr 2026
Research Assistant
- Analysed resilience of multilateral climate finance institutions and developing countries to geopolitical shocks
- Prepared policy briefs, literature review, and contribute to working paper

Peruvian Amazon Rural Livelihoods and Poverty Project
Research Assistant — Apr – Oct 2025
- Designed and implemented livelihood survey (500+ households) into computer-assisted personal interviewing platform
- Wrote documentation and training materials, coordinated with international field teams
- Cleaned and analysed panel survey data on rural livelihoods in Stata

Gault Nature Reserve, Beloeil
Field Operations Assistant May – Aug 2025

- Developed a Python-based dashboard to monitor biodiversity indicators
- Participated in ecological and conservation fieldwork, wrote public-facing science communication blogs and produced maps with GIS

Department of Geography, McGill University
Arts Research Fellow May – Jul 2024

- Comparatively studied equity implications of climate mitigation instruments

Publications and Research Outputs

Working Paper: Systemic Concentration Risk in Multilateral Climate Finance (Target: Nature Climate Change), With Samuel Fankhauser and Benjamin Attia

Working Paper: Taxing Carbon, Taxing Place: Carbon Taxes across 13 million Canadian Households (Target: Journal of The Association of Environmental and Resource Economists), with Sebastien Breau

Referees

Samuel Fankhauser, Interim Director of the Oxford Smith School, Professor of Climate Change Economics, University of Oxford, sam.fankhauser@ouce.ox.ac.uk

Sebastien Breau, Professor and Department Chair, Department of Geography, McGill University sebastien.breau@mcgill.ca

Awards

Canadian Association of Geographers Undergraduate Award, May 2025
Arts Research Internship Award, May 2024

Languages

English (Fluent in Reading, Writing, Speaking)
French (C1 in Reading, Writing, Speaking)
Spanish (B2 in Reading, Speaking)

Administrative Experience

Jam for Justice
President Sep 2024 – May 2025

- Led a team of 17 delivering programme of events, oversaw project planning and task delegation
- Organised logistics for large (300+ attendees) events

Additional Skills

Microsoft Office: daily use of Microsoft Word (thesis and publications), PowerPoint (slide decks), Excel (data analysis), data analysis and cleaning
